öko skin Farbtafel

öko skin Fassadenlatten sind mit natürlichen Farbpigmenten vollständig durchgefärbt und in 12 Farben erhältlich. Die authentischen Farben fügen sich gut in Landschaften ein und korrespondieren mit Natur und Umgebung. Die Oberfläche ist mit variierendem Druck sandgestrahlt und erzeugt ein lebendiges Farbspiel. (Farbabweichungen der gedruckten Farben vom Originalton aus drucktechnischen Gründen vorbehalten)

öko skin colour chart

öko skin slat wall panels are dyed throughout with natural colour pigments and are available in 12 different colours. The natural, authentic colours of öko skin fit well in landscapes and blend with nature and the environment. The surface of öko skin is sandblasted with varied pressure and creates a vivid surface. (Due to technical reasons printed colours may differ from the original shade.)
